

## **AC Electronics Announces New Partnership with WPG Americas Inc.**

Arlington, Tx. – November 29, 2017 – WPG Americas Inc. (WPGA) a subsidiary of WPG Holdings, the largest global electronic components distributor, announced today a new partnership with AC Electronics, one of the nation's top providers of power lighting solutions products. The company's broad product portfolio includes LED drivers, power supplies, stock and custom LED modules and LED retrofit kits.

"Our relationship with WPG Americas will allow us to develop relationships with many new customers who we would have not had the opportunity to work with before", said Dwayne Hillman, President of AC Electronics. "WPG has strong, long-term customer relationships in the LED driver market. Our driver expertise combined with our USA-based LED module development and manufacturing abilities will allow WPG Americas and AC Electronics to become the fast, reliable, "one-stop" source for complete LED driver/module systems. We are eagerly anticipating the growth opportunities this partnership will provide to both of us."

"Our commitment to providing best in class lighting solutions to our customers continues to strengthen with the addition of AC Electronics' LED and power supply portfolio to our line card offering. Together we are excited to further accelerate customer innovation through each stage of their product concept to design and production," said Rich Davis, President of WPG Americas.

### About AC Electronics

AC Electronics has been designing and manufacturing a wide range of lighting power products for 20 years and committed to providing customers with innovative, cost-saving and quality power lighting solutions that advance energy-saving technology. In addition to their reputation for producing products for extreme temperature applications is second to none. They are one of the nation's top providers of LED drivers and power supplies and LED retrofit kits because they back their products with unsurpassed quality, warranty and customer support.
